

WHEELAIR

BATTERY-POWERED AIRFLOW BACK SUPPORT

The wheelAIR is an award winning airflow back support with a built in battery-powered fan to reduce heat and moisture build-up.

Ideal for active users, athletes, or those who find it difficult to regulate their body temperature, particularly during warmer weather.

Available in 4 widths (14", 15", 16" and 18") to fit any active lightweight rigid or folding wheelchair with a canvas backrest.
