

GLIDE WEAR^{by Tamarack}

Dual-layer Shear Reduction Zone glides with users skin

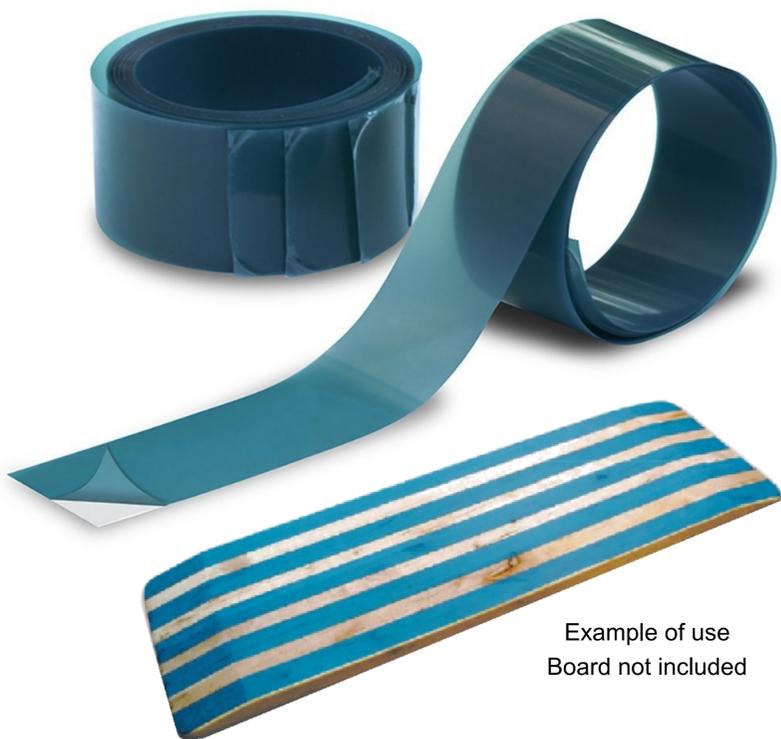

Single layer stability zone enhances user positioning and control

GLIDEWEAR CUSHION COVER

- Glidewear Seating Interface cushion cover slips over most wheelchair cushions
- Features dual-layer fabric technology that slides against itself for extra protection from friction and shear
- Shear Reduction Zone absorbs friction and shear forces under bony prominences
- Helps maintain proper positioning and stability while sitting
- Lightweight, breathable fabric helps reduce moisture build-up to preserve skin integrity

3 SIZES

- Small 14x14 to 16x16
- Medium 16x16 to 18x18
- Large 18x18 to 20x20
