Great Grips are the ultimate solution for round door knobs that are difficult or painful to open. Ideal for seniors, arthritis sufferers and people with a disability. Designed so anyone can turn a door knob with a finger, elbow or closed fist with ease.

- Easy to install - no tools required
- Available in clear or glow
- Eliminates static shock
- Insulates against hot and cold doorknobs
- Compact and portable - ideal for travel

Clear grips are designed to look discreet in your home.

Glow-in-the-dark grips make it easy to find the door at night or in an emergency. Glow Great Grips recharge with exposure to sunlight or bright lights and provide up

Installation: Great Grips are easily installed and without the need for tools. Simply moisten the grips with water and stretch over any round door knob. They can be stretched up to 300% of their original size to fit non-standard size door knobs and can easily be removed if required.

Moisten Great Grips with water

Place thumbs inside and stretch over doorknob

Continue to work on to doorknob until covered
