

## INTRODUCING THE **nxt** MULTI-ADJUSTABLE POSTURAL SUPPORT

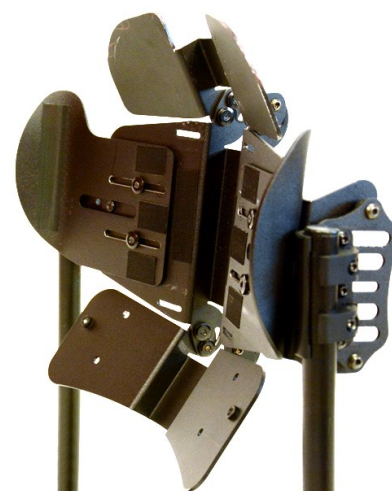

### The **MAPS** (Multi - Adjustable Postural Support) Back

A modular backrest designed for users with kyphosis or other spinal deformities. The shell is comprised of three members which can be adjusted independently to give a unique fit for the specific user. The backrest members each have a vertical central recess to provide increased pressure relief for protruding spinal processes. Mounting hardware allows for multiple adjustments of height, depth and angle.

- TOP SECTION: adjusts 40 degrees anterior & 20 degrees posterior
- BOTTOM SECTION: adjusts 30 degrees anterior & 20 degrees posterior
- Width adjustable lateral contours
- Optional width adjustable lateral/pelvic supports
- Sizing: 16 x 16, 18 x 18, 20 x 18

#### Quick Fit Mounting Hardware

- 50 degrees of angle adjustment.
- 5"/12.7 cm of depth adjustment, 2.5" in front & 2.5" behind back canes .
- Clamps open wide for installation/removal without taking them apart.
- Provides rotation adjustment for pelvic or trunk rotation.
- One hand quick release for easy removal to fold chair or transport.
- Fits 3 widths of chair by adjusting the mounting pins (ie. 16" back fits 16", 17" & 18" chairs)
