Supracor.

Stimulite® Honeycomb:  
A Revolutionary Cushioning Technology

Using a sophisticated honeycomb technology derived from the aerospace program, Supracor created the first and only saddle pads that provide Total Pressure Management® — pressure relief, reduced shearing and ventilation to control heat and moisture — the key to preventing sore backs in horses.

Supracor saddle pads feature Stimulite honeycomb, a revolutionary cushioning material that has been proven to be highly effective in preventing and healing pressure sores among wheelchair users, and cancer and burn patients.

Manufactured from an advanced medical grade material that's antibacterial and antifungal, Stimulite honeycomb distributes weight uniformly over your horse's back to relieve pressure while providing exceptional stability. The honeycomb cells contour and flex with your horse's movements to absorb shock and prevent the saddle pad from slipping. Tiny perforations in the honeycomb cell walls circulate air and evaporate moisture so your horse's back stays cool and comfortable.

Easy to care for, simply sponge or hose off after use, shake to remove excess water and air dry; or machine wash in a front load washer.

Extensively tested by professional riders, Supracor's innovative product line is specifically designed to accommodate each riding discipline: English, Hunter/Jumper, Dressage, Western, Barrel Racing, Reining and Roping, Endurance and Racing. We also offer a Bareback and Training Pad that is ideal for developing a rider's "seat" and for therapeutic riding.

#### CLASSIC COOL GRIP® (ALL-PURPOSE)

Our award-winning, all-purpose Classic Cool Grip contours beautifully to your horse's back. Washable.

20" L x 19.5" W  
Black or white

#### CLASSIC COOL GRIP® COVER

Made from high-quality cotton in a customized quilted pattern, our half-pad cover is trimmed with your choice of 100% natural sheepskin or white fleece. Breathable wool on the underside works with the Cool Grip to promote ventilation. Machine washable.

21" L x 22" W  
Fleece trim (as shown)  
Sheepskin trim

#### HUNTER/JUMPER COOL GRIP

The choice of champions, Supracor's Hunter/Jumper Cool Grip features a specially designed cutback wither area that cushions the pommel while allowing for optimal flexion of the horse's withers. Firmer honeycomb in the front section provides added protection. Washable.

19" L x 21" W  
22" L x 21" W  
Black or white

#### HUNTER/JUMPER COOL GRIP COVER

Our Hunter/Jumper half-pad quilted cotton cover works with the honeycomb to keep the horse's back cool and comfortable. Breathable natural wool on the underside promotes ventilation. Available in natural sheepskin or white fleece trim. Machine washable.

21" L x 22" W  
24" L x 22" W  
Sheepskin trim (as shown)  
Fleece trim

#### DRESSAGE COOL GRIP

Supracor's Dressage Cool Grip features an anatomically correct topline for high-withered breeds. Slightly thinner than Supracor's H/J Cool Grip for closer contact. Offers superb ventilation and stability. Washable.

21" L x 21" W  
23" L x 21" W  
Black or white

#### DRESSAGE COOL GRIP COVER

Our high-quality, Dressage full-pad cotton cover in a customized quilted pattern features breathable natural wool on the underside, which works with the honeycomb to enhance the ventilation system. Machine washable.

22" L x 42" W  
25" L x 42" W  
White

#### FULL SHOW PAD

Supracor's Full Show Pad is perfect for showing and everyday riding. The slightly cutback wither area cushions the pommel allowing for flexion in the withers and room for excess reins. The cover outlines any English saddle with a bold, one-inch border of white fleece. The Cool Grip insert can be used by itself for everyday riding. Washable.

19" L x 36" W  
21" L x 36" W  
White

#### ALL-PURPOSE ENGLISH PAD

Our All-Purpose English Pad is an excellent everyday pad that will keep your horse cool and comfortable. The ultrasuede cover contains our anatomically-shaped Classic Cool Grip, ensuring maximum protection for your horse. Use it by itself or inside the cover. Breathable wool on the pad's underside works with the honeycomb to wick away moisture and minimize sweat. Washable.

22" L x 41" W  
Black ultrasuede (as shown) or brown ultrasuede with black trim

#### WESTERN COOL GRIP

Our Cool Grip for western saddles features a natural lift for clearance over the withers. Designed to be placed directly on the horse's back without the need for additional padding, a Navajo blanket can be placed over the Cool Grip for showing. Washable.

30" L x 26" W

Black

#### RACING COOL GRIP

Designed for racehorses, our ultra-lightweight, ventilated Cool Grip will keep your high-performance athlete's back cool and comfortable in the heat of competition. Features Stimulite honeycomb for exceptional shock-absorbing protection and stability. Slightly thinner for closer contact. Washable.

22" L x 27" W

Black or white

#### BARREL RACING COOL GRIP

Our Barrel Racing Cool Grip distributes weight uniformly to relieve pressure, prevents the saddle from slipping and minimizes sweat, keeping your horse cool and comfortable in the heat of competition. Contouring beautifully to your horse's back, our ultra-lightweight Cool Grip for barrel racing saddles features a natural lift for clearance over the withers. Washable.

28" L x 38" W

Black

#### ENDURANCE COOL GRIP

Ideal for English, Australian and Sport endurance saddles, place our specially designed Cool Grip directly on your horse's back for maximum shock absorption and heat dispersal, and to keep the saddle in place. Tested by competitive riders, this is the ultimate performance pad for the rigorous demands of endurance riding. Washable.

26" L x 38" W

28" L x 38" W

Black or white

#### ENDURANCE PAD

Tested on 100 mile endurance rides with a clean back at the vet check every time. The special Stimulite honeycomb insert features firmer honeycomb in the front section of the pad ensuring maximum protection for the up and downhill rigors of endurance riding. Naturally breathable wool on the underside wicks away moisture. Washable.

25.5" L x 38" W

Forest Green (as shown), black, brown and burgundy

#### WESTERN PAD

Features two removable Stimulite honeycomb inserts inside a Cordura® and breathable wool cover. The top center of the pad is split and connected with breathable wool to further promote ventilation. The naturally breathable wool underside works with the ventilated honeycomb, allowing the cells to flex and breathe while minimizing sweat. Washable.

29.5" L x 34" W

Marine Blue (as shown), black, brown, burgundy and forest green

#### BARREL RACING PAD

Features a specially designed Cool Grip inside a zippered, Cordura pocket. Honeycomb surrounds the pad and flexes to ensure the pad will never rub. Breathable wool on the underside of the pad complements the honeycomb's unique ventilation system and wicks away moisture. Washable.

29" L x 28" W

Burgundy (as shown), black, brown and forest green

#### REINING & ROPING PAD

The two removable honeycomb inserts are firmer in the front and rear sections, providing the horse with special protection against the stresses of roping and reining maneuvers. Honeycomb surrounds the inserts ensuring the pad will never rub. A specially designed honeycomb wither guard provides protection and cooling down the spine. Naturally breathable wool on the pad's underside works with the ventilated honeycomb to minimize sweat. Washable.

31.5" L x 35.5" W

Brown (as shown) and black

#### BAREBACK & TRAINING PAD

An excellent training aid for developing a rider's "seat," the flexing action of the honeycomb cells allows the rider to feel the horse's movements. Features rings for attaching stirrups and breast collar covered with white fleece for the rider's comfort, plus a girth strap padded with Stimulite honeycomb. Breathable wool on the underside works with the honeycomb to enhance ventilation. Ideal for therapeutic riding. Washable.

25" L x 35" W; Girth Strap: 29" L x 4" W  
(adjusts from 58" to 78")

Brown ultrasuede with white fleece trim

#### SEAT SAVER

Once you've equipped your horse with a Supracor saddle pad, experience the same incredible comfort your horse enjoys with a Supracor Seat Saver, featuring a removable Stimulite honeycomb insert inside a plush ultrasuede cover. Fits most saddles. Washable.

16" L x 13.5" W

Black ultrasuede (as shown)

Brown ultrasuede

#### THERAPEUTIC HONEYCOMB HOOF PAD

Designed to work just like the elastic horn tubules inside your horse's hoof — which naturally flex and compress to absorb shock — the honeycomb pad absorbs 40 times more impact than other leading hoof pads. Comprised of elastomeric material in a matrix of encapsulated air pockets, its unique cellular structure distributes weight across the hoof, providing the most impact resistance in the heel area where the initial shock occurs.

#2 Pleasure (5.75" x 5.75"), #4 Pleasure (6.5" x 6")

#5 Draft (7" x 6.5"), #6 Draft (8.25" x 8.25")

#### ANIMAL WASH MITT

Now you can give your horse a stimulating massage while bathing with our versatile wash mitt. The mitt easily removes dirt while the flexing action of the honeycomb cells stimulates blood flow to promote healthy skin. Perforations in the honeycomb cells create a foamy lather with just a pinch of soap. After rinsing, use the mitt in place of a sweat stick to remove excess water. Naturally antifungal and antibacterial, it quickly rinses clean, resists mildew and never gets soggy.

Supracor is the originator of fusion-bonded honeycomb technology, a flexible form of aerospace honeycomb utilized in products that promote the health and safety of people and animals.

Initially applied to wheelchair cushions and hospital mattresses for pressure sore prevention, Supracor's Stimulite® honeycomb is the basis of a revolutionary line of equestrian products that provide shock-absorbing protection and maximum ventilation.

A versatile, engineered material, Supracor's shock-absorbing honeycomb can be found in high-performance applications such as bullet-proof vests, sports protective equipment and bumpers for amusement park rides.

Supracor's products are exclusively made in California's Silicon Valley from American-made, eco-friendly materials.
