

NXT KIDS CONTOUR BACK

1" CONTOUR DEPTH

The Kids Contour Back from Dynamic Health Care Solutions nxt Seating Series is a **height adjustable** paediatric back support. Features a subtle contour, and grows with the child by increasing in height to accommodate growing bodies, without sacrificing pelvic support. The height can be easily adjusted with infinite heights between 8" and 12.5" (varies).

KC Back Options: Swing away, contoured or fixed lateral supports with multiple adjustments. Headrests with hardware also available.

Nxt back supports include 'Quick Fit' mounting hardware with quick release for easy portability and depth, rotational & angle adjustment.

Code	Width	Height	Fits Wheelchair Widths
NHAKCB10/8-10.5	10"	8" - 10.5"	10" - 11"
NHAKCB12/9-11.5	12"	9" - 11.5"	12" - 13"
NHAKCB14/10-12.5	14"	10" - 12.5"	14" - 15"

Note: Backs can fit 2" wider than standard widths using extended mounting pins

MATRIX MINI BACK

3" CONTOUR DEPTH

The Matrix Mini Back by Motion Concepts is contoured to fit children of all shapes and sizes, combining exceptional support in an appealing low profile package. Includes 'Mini Set' hardware with quick release for easy portability with depth, rotational and angle adjustment. Comes standard with Kidabra print cover (pink or blue for purchase only). Optional swing away lateral supports and headrests available. Please enquire for more sizes.

Code	Width	Height	Fits Wheelchair Widths
