

## STIMULITE PAEDIATRIC CONTOURED

The Paediatric Contoured by Supracor is a 2½" thick ventilated cushion designed to provide positioning and comfort. Constructed with a soft top layer fused to a firmer bottom layer of specially engineered Stimulite honeycomb. 100% washable.

Code	Size	Weight Limit
PDCD1010	10" x 10"	55kg
PDCD1212	12" x 12"	55kg
PDCD1414	14" x 14"	55kg

## KIDABRA VI / MATRX VI

The Kidabra Vi / Matrx Vi by Motion Concepts provides skin protection and positioning for users at moderate to high risk of skin breakdown. The triple foam construction (including visco insert) targets skin protection to where it is needed most and features improved stability, support and comfort.

Code	Size	Weight Limit
KA1212	12" x 12"	68kg
KA1214	12" x 14"	68kg
KA1412	14" x 12"	68kg
KA1414	14" x 14"	68kg
MA1415	14" x 15"	68kg
MA1417	14" x 17"	68kg

## MATRX PS

The Matrx PS (Posture Seat) by Motion Concepts provides superior positioning, stability and comfort. The single layer design features an anatomically contoured shape with a unique waffled ischial relief recess.

Accommodate ½" or 1" obliquities with the **Pelvic Obliquity Kit**. The foam inserts can be installed between the layers of the Kidabra Vi / Matrx Vi or underneath the base of any other cushion for a custom fit.

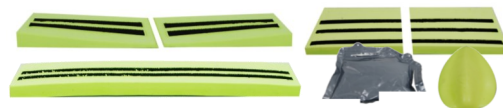

Code	Size	Weight Limit
PS1010	10" x 10"	68kg
PS1012	10" x 12"	68kg
PS1014	10" x 14"	68kg

PS1412	14" x 12"	68kg
PS1414	14" x 14"	68kg
PS1416	14" x 16"	68kg

## LIBRA CUSHION

The Matrx Libra by Motion Concepts provides the highest level of skin protection, positioning and adjustability for unique user needs. Specially contoured to provide balance and stability to the pelvis, optimising body function. The range of optional accessories can enhance immersion, correct or accommodate orthopaedic issues for users at high risk.

Code	Size	Weight Limit
LC1412	14" x 12"	133kg
LC1414	14" x 14"	133kg
LC1416	14" x 16"	133kg

## BRIO CUSHION

The Brio Cushion by Physipro is an economical cushion for users who require moderate positioning and pressure relief. Designed for stability, to help reduce sliding and shearing. 2½" thick with lateral wedge ¾" each side. Made from urethane foam sheeting and memory foam.

Code	Size	Weight Limit
PPBR1010	10" x 10"	85kg
PPBR1012	10" x 12"	85kg
PPBR1212	12" x 12"	85kg

PPBR1412	14" x 12"	133kg
PPBR1414	14" x 14"	133kg
PPBR1416	14" x 16"	133kg

## NXT BIO FIT

The BioFit by Dynamic Health Care Solutions is a multi-layered contoured foam cushion made with visco gel beads to reduce heat build-up. Ideal for users at moderate to high risk of skin break down.

Code	Size	Weight Limit
NXCABF1010	10" x 10"	80kg
NXCABF1212	12" x 12"	80kg
NXCABF1414	14" x 14"	100kg
NXCABF1416	14" x 16"	100kg

## CURVE

The Curve is a single layered foam cushion by The Comfort Company. Made from high density foam and moulded contours to increase the surface area and reduce the potential for skin integrity issues.

Code	Size	Weight Limit
CU SV 1010	10" x 10"	45kg
CU SV 1212	12" x 12"	45kg
CU SV 1414	14" x 14"	68kg

## CUSTOM FOAM CUSHIONS

When a standard cushion does not meet your client's needs (e.g. non-standard size, leg length discrepancy) we can fabricate an odd sized/shaped cushion out of foam for trial. Our off-the-shelf foam and Stimulite cushions can also be customised for purchase. Please contact us to discuss your client's needs.

## EMBRACE ANTI-THRUST

The Embrace Anti-Thrust by The Comfort Company provides pre-ischial build up to prevent forward migration and maintain pelvic stability. Abductor/adductor contouring and trochanteric shelf to provide maximum stability to pelvis and leg positioning. The dual layer foam construction provides skin protection and positioning for users at moderate to high risk of skin breakdown.

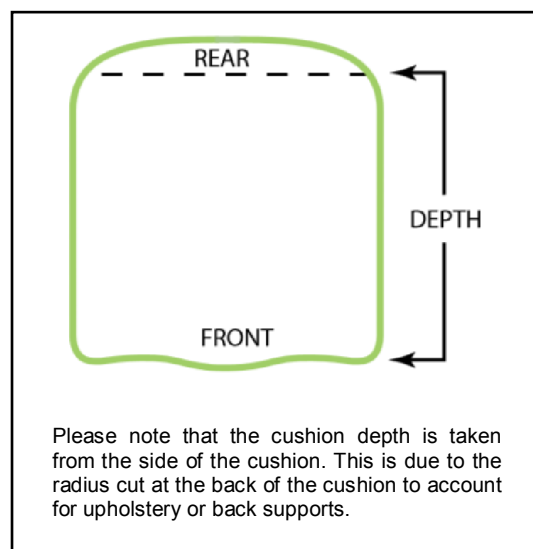

Create additional contouring and support with the optional **Embrace Mouldable Base Insert**. Constructed out of high strength, lightweight aluminium that can be moulded and remoulded for on-site customisation.

## EMBRACE ZERO ELEVATION

The Embrace Zero Elevation by The Comfort Company provides lower contour features for more freedom of movement for standard positioning issues. However - it still gives the ability to maintain stable pelvic and leg positioning with a lesser overall cushion height. The dual layer foam construction provides skin protection and positioning for users at moderate to high risk of skin breakdown.
