

Stimulite Insoles

Stimulite shoe insoles are made from a medical grade product called Honeycomb Stimulite which has the ability to gently massage feet, stimulate capillary action and reduce fatigue. The honeycomb cells keep the insoles ventilated allowing them to be naturally antibacterial, antifungal and odour resistant.

Stimulite Insoles help to distribute weight uniformly to relieve pressure while providing exceptional stability and support. They have ability to contour to the shape of feet and flex with movement for the ultimate shock absorption. Highly durable and machine washable, Stimulite Insoles are available in two styles and a range of sizes.

Comfort Insoles (Green):

Designed to gently massage feet to stimulate blood flow while circulating air and evaporating moisture, cooling feet with each step. Allows the user to 'feel' the massaging effect of the insole.

Sport Insoles (Blue):

Encapsulates air in the honeycomb cells to provide excellent shock-absorbing protection for runners and people who are on their feet for a long period of time. More suited to impact activities and people weighing over 90-100kgs.

Sizing:

Comfort Women's 5-6
Comfort Women's 7-8
Comfort Women's 9-10
Comfort Men's 9-10
Comfort Men's 11-12

Sport Women's 6-7
Sport Women's 7-8
Sport Women's 9-10
Sport Men's 9-10
Sport Men's 11-12

UK	3 - 4	4 - 6	6 - 7	8 - 9	10 - 11	11 - 13
Europe	35 - 36	36 - 37.5	37.5 - 39	40 - 42	42 - 44.5	44.5 - 47

Fitting: Insoles can be slightly trimmed at the front to the desired shape if required. We do not recommend cutting the heel of the insole. Please note that Sport Insoles are a wider fit that is suitable for sport shoes, work boots, and gumboots.

Care Instructions: Insoles are machine and hand washable but with cold water only. While laundry powder can be used, do not use any harsh chemicals such as chlorine bleach.
