

CUSHIONS

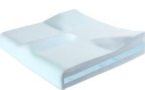

Kidabra Vi: The Matrx Vi by Motion Concepts provides skin protection and positioning for users at moderate to high risk of skin breakdown. The triple foam construction targets skin protection to where it is needed most and features improved stability, support and comfort. Available in 12x12 to 14x14.

Matrx PS: The Matrx PS (Posture Seat) by Motion Concepts is designed to provide superior positioning, stability and comfort. The single layer design features an anatomically contoured shape with a unique waffled ischial relief recess. Available in 10x10 to 14x14.

Matrx Libra: The Matrx Libra by Motion Concepts is specially contoured to provide balance and stability to the pelvis, optimising body function. The Libra Fit Kit includes wedges and accessories to enhance immersion, correct or accommodate orthopaedic issues, offering positioning and adjustability for unique user needs. Ideal for those at high risk of skin break down. Available in 14x12 to 14x14.

Brio: The Brio cushion by Physipro is an economical cushion for users who require moderate positioning and pressure relief. Designed for stability, to help reduce sliding and shearing. 2½" thick with lateral wedge ¾" each side. Made from urethane foam and memory foam. Available in 10x10 to 14x14.

Paediatric Contoured Cushion: The Contoured cushion by Supracor is a 2 ½" thick ventilated cushion with a 'growth' feature designed to provide children with positioning and comfort. Constructed of a soft top layer fused to a firmer bottom layer of specially engineered Stimulite honeycomb. Available in 10x10 to 14x14.

Embrace Anti-Thrust: The Embrace Anti-Thrust by The Comfort Company provides anterior pelvic build-up to prevent forward migration. Provides skin protection and positioning for users at moderate to high risk of skin breakdown. The dual layer foam targets skin protection support and comfort. Available in 10x10 to 14x14. Mouldable base insert optional.

Embrace Zero Elevation: The Embrace Zero Elevation by the Comfort Company allows for greater freedom of movement for standard positioning issues. Provides skin protection and positioning for users at moderate to high risk of skin breakdown. The dual layer foam construction targets skin protection support and comfort. Available in 10x10 to 14x14. Mouldable base insert optional.

Curve: The Curve is a single layered foam cushion by The Comfort Company that provides users with a good quality, yet cost effective option. Made from high density foam and moulded contours to increase the surface area and reduce the potential for skin integrity issues. Available in 10x10 to 14x14.

Custom Foam Cushions: When a standard cushion does not meet your client's needs (e.g. non-standard size, leg length discrepancy) we can fabricate an odd sized/shaped cushion out of foam for trial. Our off-the-shelf cushions can also be customised for purchase.

Cushion Accessories: Pelvic Obliquity Kits, Rigidisers, Incontinence and custom covers, Cushion-It (sheepskin overlay), Stimulite on Top (honeycomb overlay) and Stimulite Breathable Sheeting. Back support accessories also available e.g. laterals, headrest, mounting hardware.

BACK SUPPORTS

Matrx Mini Back: The Matrx Mini Back by Motion Concepts is contoured to fit kids of all shapes and sizes - combining exceptional support in an appealing low profile package. It has a contour depth of 3" and is available in 10" to 14" to fit wheelchairs 10" to 15" with a height of 7" or 10" (varies). Features Mini Set hardware, a smaller version of the standard Matrx Easy Set hardware.

Matrx Posture Back: The Posture Back by Motion Concepts provides exceptional comfort, midline support and positioning. It has a contour depth of 5" and is available in 14" to fit wheelchairs 13" to 15", with height options of 12" and 16".

Matrx Elite Back: The Elite Back provides precise orientation within a wheelchair for optimal postural support and features an attractive, lightweight design that is ideal for users with active lifestyles. The Elite has a contour depth of 3" and is available in 12" to 14" to fit 11" to 15" wheelchairs, with height options of 10", 12", 16" and 20".

Matrx Elite Deep Back: The Elite Back provides precise orientation within a wheelchair for optimal postural support and features an attractive, lightweight design that is ideal for users with active lifestyles. The Elite Deep Back has a contour depth of 6" and is available in 14" to fit 13" to 15" wheelchairs, with height options of 12", 16" and 18".
