

The EzTray is an assistive device for wheelchairs and walkers. Features a table-top, cup holder and utility hook to provide an extra 'arm' or 'hand' when needed for everyday tasks.

- An innovative system that is lightweight, durable and portable
- The table-top, hook and cup holder give the user independence
- The uniquely designed clamp fits all walkers and most manual or power wheelchairs
- Once the clamp is secured, the attachments can be used as needed or carried in the provided tote bag
- Works on wheelchairs with or without arm rests unlike other trays
- Table-top can be swivelled out of the way when not in use
