nxt KulFit Cushion

nxt BioFit Cushion

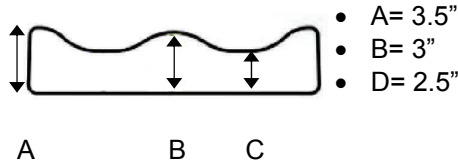

Anatomically shaped SPS (Selectively Perforated Softening) perforations are anatomically positioned to support the Ischial/sacral area to prevent sliding and shear and maintain pelvic positioning. Provides immersion and lower pressures to the bony prominences while supporting surrounding areas that can take a higher load.

nxt KulFit Cushion

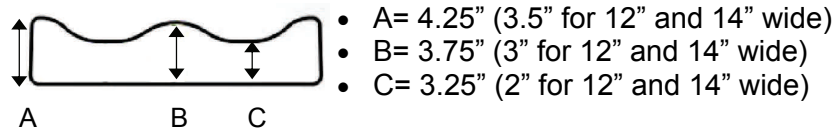

- Dual layered contoured cushion made from breathable, quick dry reticulated suspension foam.
- **Selected Perforated Softening (SPS)** at the pelvic area enhances immersion for bony prominences - improves pelvic positioning, enhances comfort and stability.
- Reticulated foam provides cool, low surface moisture level to enhance heat and moisture dissipation and is made with antibacterial properties.
- Designed for the active user with a low to medium risk of skin breakdown.
- Lightweight: >1kg
- Comes in sizes from 12" to 20" wide.
- Washable.
- Internal and external covers provided as standard.

nxt BioFit Cushion

- Multilayered contoured foam cushion utilising the latest Visco Gel foam technology.
- The Visco Gel beads act to reduce heat build up, critical to minimise skin integrity issues.
- **Selected Perforated Softening (SPS)** at the pelvic area enhances immersion for bony prominences. Also improves pelvic positioning, enhances comfort and stability.
- Designed for positioning and comfort for users who are at moderate to high risk of skin breakdown.
- Lightweight >1kg
- Comes in sizes from 10" to 20" wide.
- Internal and external covers provided as standard.

KulFit & BioFit Outer Cover
<ul style="list-style-type: none"> • Air mesh cover for comfort and low temperatures • Steel blue (KulFit) or metallic black (BioFit) mesh front for air exchange and style • TuffTex sides for durability and protection • Textured non-skid bottom with loop velcro and carry strap
KulFit & BioFit Inner Cover
<ul style="list-style-type: none"> • Fluid proof and breathable • Multi-directional stretch fabric for immersion • Wipes clean between washes • Zipper for foam access and protection
