

Our Recommendations for Travelling with a Fumpa

- If in doubt check with the airline.
- Keep your original packaging for travel.
- Do NOT check in your Fumpa, take it in your carry on so it can be checked.
- The rating of Watt hours (Wh), Amp hours (Ah) and voltage (V) are shown at the bottom of the Fumpa

Airline information regarding lithium batteries

Air New Zealand: <https://www.airnewzealand.co.nz/travelling-with-lithium-batteries>

Jetstar: <https://www.jetstar.com/nz/en/help/articles/dangerous-goods>

Quantas: <https://www.qantas.com/nz/en/travel-info/baggage/dangerous-goods/battery-powered-devices-and-equipment.html>

Virgin Australia: <https://www.virginaustralia.com/nz/en/plan/baggage/batteries/>

Other airlines will also have specific information regarding lithium batteries available to check on their website.
